**PETITION FOR LEAVE TO AMEND**

Crystal Clear Communications, Inc. ("Crystal Clear"), by and through counsel, by and through counsel, in response to the Hearing Designation Order ("HDO") specifically noted below, hereby seeks leave to amend its application and shows in support the following:

1. The above captioned matter was designated for a hearing by HDO released April 13, 1992 (DA 92-361). In paragraphs 2 and 7(1) of the HDO, there was a mention of a need to more fully address the applicant's environmental assessment. To that end, Crystal Clear seeks to amend its application to show its compliance with the Commission's standards as to protecting workers from radiation.

2. Additionally, Crystal Clear seeks to amend its application in compliance with Section 1.65 of the Commission's rules to update the application and permit broadcast interests of the applicant's passive investor.

3. Since this amendment is being submitted within thirty (30) days following the release of the HDO, this amendment is submitted as of right, and the good cause

requirement is inapplicable.

THEREFORE, Crystal Clear requests that this Petition be GRANTED and the attached amendment ACCEPTED for filing.

Dated: 5/11/92

Amendment to Form 301:

It has been determined that the RDF radiation exposure expected to result will not exceed the FCC specified guidelines for human exposure to radio frequency radiation. However, out of an abundance of caution, the applicant will require that any persons climbing the tower will wear those federally approved protective clothing (if that occurs) to reduce the risk of radio frequency radiation exposure, and further will place a fence around the transmitter area to allow individuals to avoid the area as much as possible. Moreover, the power from the transmitter will be reduced or shut completely off during those times maintenance personnel are working in the transmitter area to prevent RDF radiation exposure risks.

Amended Exhibit 2 to FCC Form 301
